On March 16, Consul-General Mr. ISOMURA Toshikazu inaugurated the E-healthcare Center established by Birth Defects Foundation; an NGO working for babies born with ambiguous genitalia and transgenderism. Speaking at the ceremony that was held at Karachi Press Club, Consul-General appreciated the efforts of the organization and assured them of his support for the cause. The chairman of the organization, Mr. Ansar Javed expressed his intention for eventually building a teaching hospital in Pakistan where such people can get access to free treatments including surgeries.

CARE CENTRE

The aim of 1st E-Health care center of Birth Defect foundation is connect 20 different cities of Pakistan. It will facilitate both doctors and patients especially from distant areas. our most of the patients are poverty-stricken and can't afford regular visit to Lahore for consultation. due to this reason, most of the patient give up on the treatment. since prior to the surgery patients have to consult doctor time to time for up to six month regularly. to make it easier, BDF is introducing 1st E-Health Centers where gadgets attached with Laptop and electronic assets will be connected to provided the necessary guidance to the patient and only for the surgery.
